

State Route 7/Route Development Plan, Phase 1 – Morton to Elbe. South half of study area.

State Route 7/Route Development Plan, Phase 1 – Morton to Elbe. North half of study area.

## Deer Removed by Maintenance, 2000 - 2004

How the Phase 1 study area compares to other highway segments (of similar distance) in Washington with known high removals.

## Deer Removed by Month (2000 - 2004)

### SR 7, MP 0 - 16.82

An example of how the WSDOT data can be used.

## Average Deer Collisions per Year

How Washington compares with other states. Keep in mind that WSDOT data only tracks those animals removed. The 3,000 number is likely slightly higher as several animals are hit and make it off the roadway or are picked up by others
